**Class II appliance:** appliance whose protection against electric shock is not only relevant to the main insulation, but also includes additional safety measures, such as dual insulation or reinforced insulation. These measures do not include ground devices as protection and do not depend on the installation conditions.

**Class III appliance:** appliance whose safety against electric shock is based on safe extra low voltage power supply. Compliance with legislation is guaranteed only if the appliance is powered by a SELV safety transformer/driver in compliance with legislation in force. The appliance must not be connected to ground conductors.

Degree of protection against access of foreign bodies, dust and water.

Appliance with this symbol can only use low pressure bulbs or bulbs with safety glass.

Do not use cold light lamps.

To prevent the risk of fire, maintain the minimum distance indicated from the bulb with lighting objects. This distance should be measured along the optical axis of the appliance to the closest lighting object.

**Color Rendering Index:** the degree of colour distortion under a given light source in comparison with a reference light source. The optimum colour rendition index is Ra=100.

The luminous flux, measured in lumen, indicates the quantity of light perceived by the human eye emitted by a light source. In Davide Groppi lights with an integrated module, the delivered lumen flux is obtained from the photometric measurement. In lights with a lightbulb included, the luminous flux is indicated provided by the manufacturer of the lightbulb.

Luminaire designed to be powered by ENDLESS conductive tape.

Luminaire integrated with Casambi, the Bluetooth Low Energy (BLE) technology for lighting control.

Luminaire with Extradark comfort system. The Extradark system associates an optical TIR PMMA lens to an element that geometrically shields the light beam viewing angle to obtain highly uniform lighting and full beam control. The polished black light shield is used to control the mirror reflection of the light, perfectly controlling the unified glare rating (UGR\* <19).

All Davide Groppi products, except those specifically indicated,  
are equipped with electronic light sources (LED).  
The selection of diodes is carried out with the utmost care to guarantee  
the highest levels of performance and luminous uniformity.

**WIRELESS**

## 35MM

Alessandra Dallagiovanna - Davide Groppi / 2009

Those dear old slides. Nobody pays any attention to them anymore.  
It's the smallest lamp in our collection.  
It's an idea, a thought, a pendant, something you can wear.  
The pulsating light and the images you choose to display on it  
make 35MM unique and exceptional.

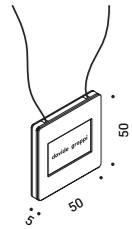

# 35MM

Alessandra Dallagiovanna - Davide Groppi / 2009

Objects / Diffuse / Wireless

**Material** Metal - Polycarbonate  
**Finish** .00 Standard

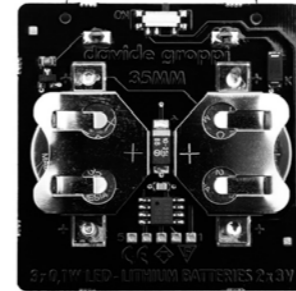

**Note** Battery-operated wearable luminaire. Matt white front. Glossy black back.

## PoPuP

Daide Groppi / 2016

Light\*Music\*Wireless

Created to give you both light and music any place, at any time.

PoPuP accompanies you during your unforgettable moments.

The sounds it produces are dynamic and of excellent quality.

Light and sound can also be enjoyed separately.

Listen to the light.

## POST PRANDIUM

Daide Groppi / 2023

During a meal with friends, a ladle is reused to scoop up the light  
and serve it onto the table.

A project from many years ago, today in a new wireless version.

## TeTaTeT Flûte

Davide Groppi / 2017

This is an evolution of our TeTaTeT lamp.  
The lamp head is lightweight and appears to be floating in air.  
The transparent stem brings to mind the glasses used in the classic "mise en place".  
Magnetic fixing base.

## VIS À VIS

Michele Groppi / 2023

Vis à Vis is a magic trick, between technique and illusion.  
Once again, we decided to take away, seeking only the light.  
Transparency is the main feature of this battery-powered lamp.

**Elle Deco International Design Award 2024**

**Archiproducts Design Award 2023**

**TABLE**

## ANIMA

Davide Groppi - Giorgio Rava / 2021

A slender, light, ephemeral and abstract sculpture, it is a weightless ideogram. It's the emotion of an indirect light with an aesthetic poised between Scandinavian and Japanese design, two apparently distant cultures but, actually, very close.

At the top, an open circle, almost a hook for fishermen of the soul.

**Selection for ADI Design Index 2022**

**AZ Award 2022**

**Archiproducts Design Award 2021**

## MORSETTO

Daide Groppi / 2017

A lamp that can be positioned, balanced and turned,  
but overall it produces a beautiful light on the table.  
The oversized workshop-style clamp allows the light source to be positioned far from  
where the lamp is attached to the table, using three adjustable arms.  
A table lamp, but at the same time a suspended light.  
Wall version also available.

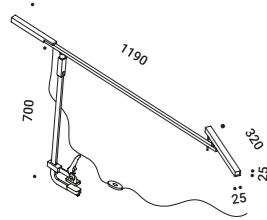

# MORSETTO

**FLOOR**

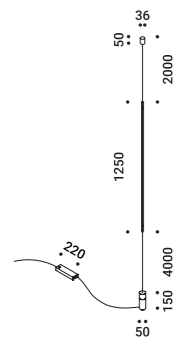

A tribute to Alberto Giacometti and to his thin fellows...  
A lamp for lighting pictures, powered by an ordinary electrical socket.  
The lamp has an adjustable light and it can be oriented.  
The lamp section is reduced to a minimum.

Floor-Suspension / Indirect / Indoor

**Material** Brass - Methacrylate  
**Finish** **.03** Matt White **.04** Matt Black **.08** Brushed Brass

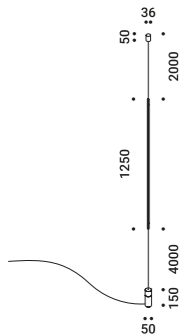

**Note** Floor luminaire with ceiling fixing. Adjustable along the vertical axis. Matt white rose. AISI 304 stainless steel suspension cable. Dimmer on the cable. Transparent cable. MASAI 2: version with power cable only and without driver.

## MOON F

Daide Groppi / 2023

Moon was created from the dream of bringing the moon inside your own home.  
The hand-made Japanese paper surface makes every lamp unique.  
Suspension and floor versions also available.

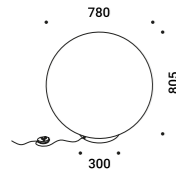

# MOON F

Davide Groppi / 2023

Floor / Diffuse / Indoor

**Material** Japanese paper - PE  
**Finish** .00 Standard

**Note** Floor luminaire. PE and Japanese paper shade. Matt white base. Dimmer on the cable. White cable. For air and sea shipping: moisture barrier bag packaging compulsory for all models and wooden crate compulsory for MOON 120 F model.

## ORIGINE

Davide Groppi - Giorgio Rava / 2020

From the Latin "origo", start, birth, source.  
It appears like a bud emerging from the ground and soaring upwards towards the sky, a stem that becomes increasingly thinner.

Mysterious and enigmatic, it combines the fascination of the unknown with the pleasure of a sophisticated and elegant ambient light.

Origine sculpts and enhances every environment with its indirect light, which is intentionally non-invasive, graphic and fascinating.

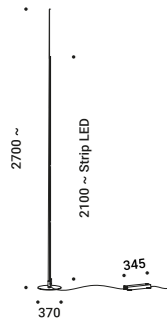

Available in 3 different heights and in an outdoor version.

 1A2320408.30.06

A special project, an authentic ready-made.  
Obtained from a flexible fishing rod, it is a delicate and elegant sign,  
which brings to mind the subtle branches of a willow tree  
or bamboo canes floating on a light breeze.  
Sampei is an unexpected gift, it is the magic of looking up, using light as a hook,  
and being amazed by so much weightlessness.  
The light is the fisherman's line, catching faces, gazes, people.  
Available in 4 different heights and also in an outdoor version.

**SUSPENSION**

## CATHODE

Omar Carraglia / 2015

A scientific looking bulb made from mouth blown glass. The shape brings to mind a light bulb that was never born. Think steampunk: situations in which instruments were inspired by the rudiments of electricity. The classic light bulb that has no future becomes a wonderful device made of luminous diodes. What would the past have looked like if the future had arrived first?

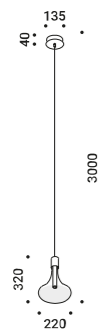

# CATHODE

Omar Carraglia / 2015

Suspension / Diffuse / Indoor

**Material** Blown glass - Metal  
**Finish** **.03** Matt White **.08** Brushed Brass

**Note** Suspension luminaire. Blown glass diffuser. Matt white rose and white cable for the matt white finish. Matt black rose and black cable for the brushed brass finish. Single rose for more than one lamp on request. CATHODE 2: plasterboard version with magnetic fixing flat rose.

## LOUIS XIV

Daide Groppi / 2023

Louis XIV is the freakiest letter of our light alphabet.  
It's a disobedient design that translates a certain rebellion  
to common lamp models into light.  
I wanted to investigate the idea of the chandelier: in line with our poetics,  
Louis XIV is the only possible solution for lightness and irony.  
Dimmable suspension lamp with double emission.

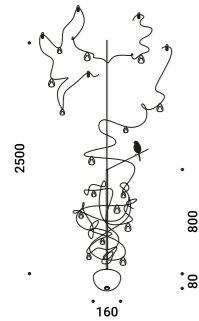

# LOUIS XIV

Davide Groppi / 2023

Suspension / Direct-Indirect / Indoor

**Material** Glass - Metal  
**Finish** .19 Polished Gold

**Note** Suspension luminaire. Eighty crystal drops and a bird. Natural brass branches. Structure with polished gold finish. Matt white rose. Dual emission and on/off. White cable. LOUIS XIV 2: version with power cable only and without rose.

Light and transparency are the true stars of this project. We have always liked to think heretically, evoking mystery, magic and seduction. Magia is the new modular suspension lighting system that can be adapted to suit the different heights of the rooms and can generate direct and indirect light with the 360° adjustable module.

In this case, the lens is not used to focus, but to modify the vision and perception of the object.

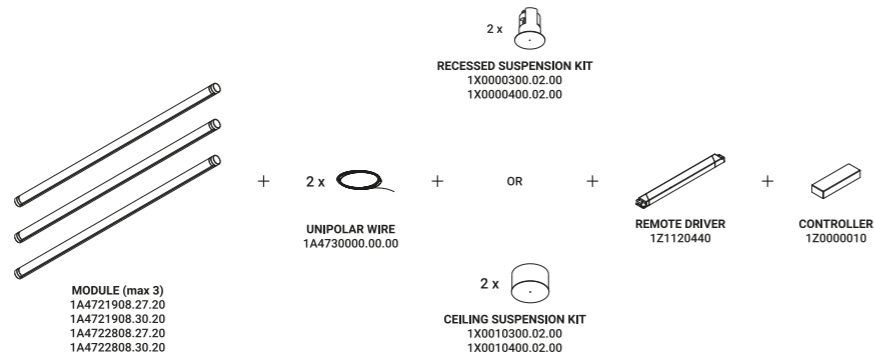

The effect of the convex lens conceals the part of the light beam and produces the lightest effect of suspension and inconsistency.

# NEURO

Davide Groppi - Beppe Merlano / 2013

The idea is to bring light wherever you like, starting from a socket.  
A simple project, almost a revival of the old electrical wiring.  
A plug, a cable, some isolators, a socket and a LED.  
Outdoor version also available.  
**Design Plus Award 2014**

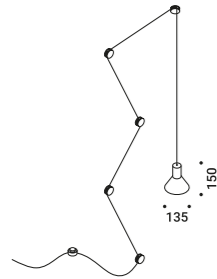

# NEURO

Davide Groppi - Beppe Merlano / 2013

Suspension / Direct / Indoor

**Material** Metal  
**Finish** .03 Matt White .04 Matt Black

**Note** Suspension luminaire. Five cable clips included. Matt white cable clips and white cable for the matt white finish. Matt black cable clips and black cable for the matt black finish.

## SIMBIOSI

Davide Groppi / 2015

A de-structured chandelier that can be re-assembled as you like.  
A conjuring trick that gives you the possibility of connecting the diodes in series using  
very weak electric currents with wires that are practically invisible.  
The very thin wire that connects the light sources and brings them alive, one in relation  
to the other, is the principal component of this project.

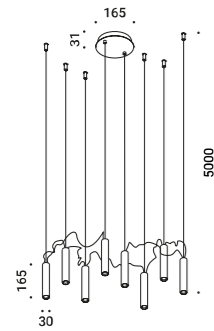

# SIMBIOSI

Davide Groppi / 2015

Suspension / Direct / Indoor

**Material** Metal  
**Finish** .03 Matt White .26 Total Black

**Note** Suspension luminaire. Matt white rose and red cables for the matt white finish. Matt black rose and anthracite grey cables for the matt black finish. AISI 304 stainless steel suspension cables.

## EDISON'S NIGHTMARE

Harry Thaler / 2014

A gestural project, full of irony and nostalgia.

Therefore, among a thousand stories, prohibitions, absurd technical rules,  
we have reached the end. The end of the incandescent bulb.

Edison's Nightmare is a salute to Edison's light bulb\*,  
a dream that changed the way we live forever, stealing time to read and write from sleep.

It is a classic light bulb, nailed to the wall. Like a work of art.

*\* From 01 September 2012, incandescent bulbs cannot be sold in the EU.*

A luminous short film.

Telling a story in light, a series of old 35MM slides are lit from behind, pulsating and shown at random.

The photographs can be assembled and replaced as you like.

The choice of the message to be communicated is completely personal: it can be an image, a logo, a sentence, anything you want to represent, at any time.

The light message is punctuated by a blinking LED, offering reading in movement.

Daide Groppi / 2019

A lamp that can be positioned, balanced and turned,  
but overall it produces a beautiful light on the table.  
It's the wall version of the Morsetto lamp.  
Three adjustable arms allow the light source to be positioned  
far from where the lamp is attached.  
Table version also available.

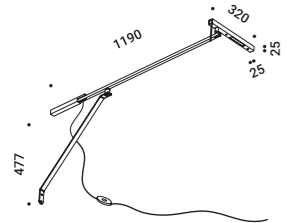

# MORSETTO P

Davide Groppi / 2019

Wall / Direct / Indoor

**Material** Metal  
**Finish** .04 Matt Black

**Note** Wall luminaire. Adjustable in all directions. Dimmer on the cable.  
Black cable.

1Z0431020

A ready-made project to design the space with a sense of irony and weightlessness. The tracks of an electric train can be used to draw a heart, but also to conduct electricity. Rail is the boundary between usefulness and show, between art and design.

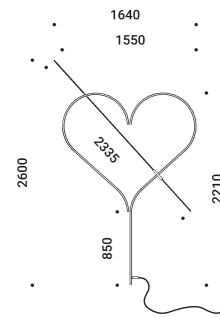

# RAIL

Davide Groppi / 2019

Wall / Direct / Indoor

**Material** ABS - Metal  
**Finish** .00 Standard

**Note** Wall luminaire. Matt black modular tracks. Dimmer on the cable.

An extreme expression of subtraction, uniting optics and electronics as an answer to the ultimate challenge: the absence of structural support and the essence of light.

Nulla is a project that represents both the beginning and end of our work on light.

It's the beginning, in the sense that we have always been looking for absolute light, one coming from a distance, almost without a source. It's the end in that every time

we look at Nulla, we feel as though we can't get it better than that.

Nulla generates light and propagates mystery. Nulla is the most generous of our lamps.

Its sole objective is to hide and give all the attention to whatever it is lighting.

What we see is only a tiny black hole, as if it were drawn on the ceiling.

A circle in the ceiling hiding a very bright LED and lens to project the light.

## FLASH

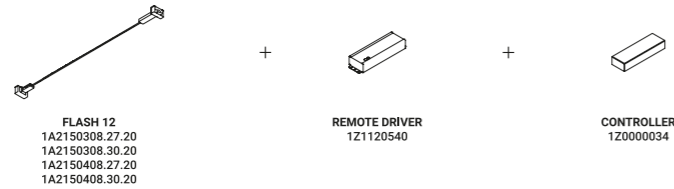

Daide Groppi / 2017

It is our Infinito model turned around, with the light flowing downwards.  
The 9 mm wide stainless steel strip can run perfectly up to 36 metres in length  
(standard versions at 6 / 12 / 18 metres in length).  
The ideal solution for direct illumination of spaces with very high ceilings.  
Its name pays homage to the famous comic book superhero,  
who can run seven times the speed of light.

## INFINITO

Davide Groppi / 2016

A spatial concept, it is continuous light.

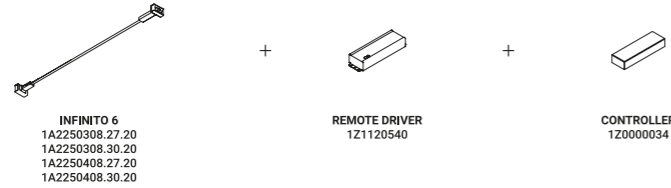

An ultra-thin strip of special stainless steel just 18 mm wide "cuts" the space to produce indirect light. Infinito can be adapted to various situations, stretched from wall to wall or ceiling to floor. It comes in strips up to 36 metres in length (standard versions at 6 / 12 / 18 metres in length). Infinito breaks down the luminaire, turning it into something else, leaving only a trace, a line and then not even that, just light. This project pays homage to the art of Lucio Fontana and his spatial concepts.

The graphic force of this system is surprising. It can be integrated into space, but at the same time it becomes part of that space. Infinito: essence and absence.

Light runs on a wire. An almost imperceptible wire, suspended in space.  
Like a tightrope walker on a thin rope, the light reaches everywhere,  
weightless and wonderful. Ohm is an electro mechanic project  
that takes maximum advantage of the characteristics of luminous diodes.  
Its secret is a special unipolar wire stretched from wall to wall. Where the light comes  
from is discreetly hidden, giving all the attention to what it is illuminating.  
It is possible to replace the light source even with the luminaire assembled.  
Luminaire designed also to be powered by ENDLESS conductive tape.

Utopia is a project on the limit state of light,  
the research for the minimum dimension necessary for pure and essential lighting.  
It represents full flexibility, in both its design and its light control.

The light strip reaches into space, bending,  
breaking and drawing abstract, mysterious patterns.

## GRILLO

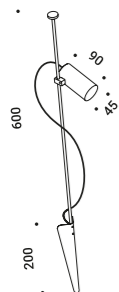

Daniele Sprega / 2012

A small luminous elf that you can install in your garden or inside a vase.  
A thin stem stuck into the ground and a little adjustable LED projector.  
For illuminating a flower, a plant or simply to accompany us along a path.  
Lamp with spike.

Floor-Outdoor / Direct / Outdoor

**Material** AISI 316L Stainless Steel - Metal  
**Finish** .04 Matt Black

**Note** Outdoor lamp with spike. Adjustable in all directions. AISI 316L stainless steel stem. Black cable (5 m).

## ORIGINE OUTDOOR

Davide Groppi - Giorgio Rava / 2020

From the Latin "origo", start, birth, source. It appears like a bud emerging from the ground and soaring upwards towards the sky, a stem that becomes increasingly thinner. Mysterious, enigmatic but comfortable, it combines the fascination of the unknown with the pleasure of a sophisticated and elegant ambient light.

Origine sculpts and enhances every environment with its indirect light, which is intentionally non-invasive, graphic and fascinating.

Indoor version also available.

## SAMPEI 440 OUTDOOR

Enzo Calabrese - Davide Groppi / 2011

A special project, an authentic ready-made.  
Obtained from a fishing flexible rod, it is a delicate and elegant sign,  
which brings to mind the subtle branches of a willow tree  
or bamboo canes floating on a light breeze.  
Sampei is an unexpected gift, it is the magic of looking up, using light as a hook,  
and being amazed by so much weightlessness.  
Indoor version also available.
